Pavilion Road Launches ‘Edible Trail’

London Cheesemongers chop chives outside their store

Chelsea Pensioner, Monica Parrott, puts the finishing touches to the 'Edible Trail'

Pavilion Road's artisan line-up is now complete – and the finishing touch is an 'edible trail' created to encourage residents and visitors alike to try their hand at foraging and experience sustainably grown produce, as well as inspiration to 'grow your own'.

The trail will change seasonally throughout the year. Look out for bronze plaques within the pots – each containing an etched QR Code, which when scanned with a smartphone, will present information on the plant as well as recipes and gardening tips.

Some of the seasonal planting to see now includes:

- Heritage plants, such as the Chelsea fig
- Seasonal fruits that thrive in the local climate – including the Riesling grape vine, blueberries, apples, pears, blackberries and strawberries
- 'Recipe pots' – such as a 'pear and berry crumble pot', including all the main ingredients required to make the perfect crumble filling
- Flavoured green tea pots, including a Camelia Sinensis (tea plant) and other ingredients such as mint and chamomile, which can also be used as infusions on their own
- Herbs and spices, a vast variety to activate the senses
- Ready-planted pineapples, pomegranate and banana trees
